Origin of Production Okinawa, Japan

Features

Moromi vinegar is naturally fermented drink with citric acid, which was bi-produced during the process of manufacturing Okinawa Awamori liquor. Moromi vinegar is made after removing any alcohol from the ingredients after fermentation with koji mold and yeast.

Efficacy .Citric acid has an antioxidative effect on blood circulation and high blood pressure, so that it can be expected to prevent lifestyle-related diseases. And moreover, it works on restraining lactic acid from its increasing in our body, that may recover from body fatigue at the soonest. You can taste it easy-drinkable.

How-to-Drink

Drink 30ml by attached cup diluted with water or soft drink as you like. Moreover, it can be applied for cooking as spice and seasoning.
