## Okinawa Noni Power

[Local market Price]

**3,675円**

(before tax 3,500yen)

The noni used in Okinawa Noni Power is grown without pesticides at our own farm and by contract growers. In order to provide our customers with the raw power of Noni, the juice is left unfermented and is not aged. The final product is bottled with no additives or preservatives. Why not try a little of the power of Okinawan Noni.

### Product information

Morinda citrifolia (noni) is a Rubiaceae evergreen tree or shrub native to India and Malaysia that has been growing naturally ever since over 2000 years ago. It is known as the "Yaeyama-aoki" in Japan, and is distributed in the Okinawa Prefecture and Yaeyama Islands. The Morinda citrifolia (noni) of this product has been grown at our private farm or contracted cropping farms by avoiding use of agrochemicals during the cultivation period. Since we wanted to provide the power Morinda citrifolia (noni) originally holds, the fruit of Morinda citrifolia (noni) was fermented and matured, and provided without preservatives or sweeteners.

[Date of release] **Apr.2006**

[Contents] **500ml**

[UPC Code] **4958349190424**

[Expiry] **2 years from date of production**

[Units / Case] **12**

[Size mm] **83×83×240  
(L×W×H)**

[Product weight] **1.0kg**

[Case Size mm] **270×350×255  
(L×W×H)**

[Case weight] **12.2kg**
