It is well known that kumisukuchin is good for the body and has long been taken in the form of tea. Kumisukuchin granules are a result of research at the Okinawa Prefectural Industrial Technology Center where the useful components (kumisukuchin polyphenol (rosmarinic acid)) were extracted and made into an easy to swallow granular pill. Ideal for helping you maintain your daily health.

Product information

Product contains 660mg of rosmarinic acid. The physiologically functional material (Orthosiphon stamineus extract), that has been noted as being effective to prevent lifestyle-related diseases, is used and made into an easy to take pill. Orthosiphon stamineus is one of the herbs that represent Okinawa.
