

## CERTIFICATE OF ANALYSIS

Mar 22, 2016

This is to certify that the DONAN powder comes from Yohaguni fossil coral above sea and it is composed of 100% fossilized coral from the Scleractinia fossil family.

Product: Fossil coral powder DONAN (food grade)

Lot No. 2015S 978

Batch size: 10kgs

Test date: Sep 4, 2015

Particule size: 3 $\mu$ m

Sterilization: Low temperature pressurized steam sterilization

<u>Analysis</u>	<u>Method</u>	<u>Specification</u>	<u>Result</u>
Color, appearance	Visual	White/off white no change	Pass
Weight	Weight scale	10kg+ within 0.5kg	Pass
Calcium	EDTA titration	35.0% and more	40.2%
	Method		
Drying	Loss on drying	1.0% and less	0.15%
Aerobic plate count	Drying medium	3000/g and less	Not detected
E.Coli	Drying medium	Negative	Negative
Fungus (Mold, Yeast)	Drying medium	100 and less	Not detected

DONAN is 100% fossil coral minerals with CaCO<sub>3</sub> over 90% and other trace minerals in natural balance.
