KANEHIDE BIO CO., LTD.

5-2-2 Nishizaki, Itoman, Okinawa, Japan

TEL : +81-98-994-1001 FAX : +81-98-994-0636

Commodity description : Shekwasha (*Citrus depressa*) juice in Powder (シークァーサー果汁末)

Inspection items	Results	※	Inspection methods
Arginine	25 mg/100g		Automated amino acid analysis method
Lysine	27 mg/100g		Automated amino acid analysis method
Histidine	11 mg/100g		Automated amino acid analysis method
Phenylalanine	18 mg/100g		Automated amino acid analysis method
Tyrosine	13 mg/100g		Automated amino acid analysis method
Leucine	27 mg/100g		Automated amino acid analysis method
Isoleucine	16 mg/100g		Automated amino acid analysis method
Methionine	8 mg/100g	1	Automated amino acid analysis method
Valine	22 mg/100g		Automated amino acid analysis method
Alanine	38 mg/100g		Automated amino acid analysis method
Glycine	28 mg/100g		Automated amino acid analysis method
Proline	75 mg/100g		Automated amino acid analysis method
Glutamic acid	128 mg/100g		Automated amino acid analysis method
Serine	54 mg/100g		Automated amino acid analysis method
Threonine	21 mg/100g		Automated amino acid analysis method
Aspartic acid	339 mg/100g		Automated amino acid analysis method
Tryptophan	4 mg/100g		HPLC
Cystine	Cannot be analyzed	2	Automated amino acid analysis method

Remarks column :

- ※1、 After oxidation with performic acid, the sample was hydrolyzed with hydrochloric acid and then measured.
- ※2、 After oxidation with performic acid, the sample was hydrolyzed with hydrochloric acid and then measured. Analysis was not possible due to interference from the sample.
