Sodium (mg)	11.0	*Calculated value					

9) Quality information

Water (%)	8.0	or less
-----------	-----	---------

10) Hygiene information

Aerobic plate count	3×10^3 /g or less	Coliform bacteria	Negative reaction
---------------------	----------------------------	-------------------	-------------------

11) Feature of Product

A powder made of 100% purple fleshed sweet potato (Chura Koibeni), with a lot of anthocyanin. The starch is made alpha and is just available as well as heating cooking. Because it is a farm output artefact, unevenness may come out in a color by lot.

Quality does not have any problem.
